IMPORTANT

The **International Register** is automatically included and free of charge if one of the registers searched is a member of the Madrid Agreement or Protocol.

Community Trademarks are automatically included and free of charge if one of the registers searched is a member of the European Union.

Industrial Names (Company Names, Shop Signs, Surnames) are automatically included and free of charge when searching trademark databases.

Trademark packages only cover databases available on SAEGIS on SERION.

ISS

The search covers identical and phonetically identical trademarks published for the first time since 1 January 1976, without any subsequent changes or updates.

Prices below are per trademark or applicant searched. Full Text views and images of records found are not included in the price.
