

U.S. Design Availability Search

A comprehensive search of your design trademark or logo against our database of U.S. Federal (USPTO) design trademark applications and registrations.

PRODUCT USES

Use the U.S. Design Availability Search to:

- **Avoid infringement** of existing trademarks
- **Support trademark litigation** by identifying design marks that advance your client's position
- **Assess whether your mark is clear** for use and/or registration
- **Assess the strength of a design mark** for acquisition or licensing purposes

PRODUCT DETAILS

- **Exclusive record enhancements:** Our design searches are prepared using our proprietary database, which is updated daily with new USPTO design trademark applications and registrations. We review each design, and add supplementary codes as necessary to ensure optimal search results from our search system.
- **Relevant and comprehensive results:** We cite identical and closely similar design trademarks, in the goods and services classes you specify, ensuring your final report includes only the most pertinent marks.
- **Save time and work more efficiently:** Your design search is available online with PowerBuild™, our exclusive report review and collaboration tool.

COVERAGE / SOURCES

The Thomson CompuMark U.S. Design Availability Search is a comprehensive search of your proposed trademark.

- **Our proprietary design search database** is comprised of design trademark applications and registrations filed with the U.S. Patent & Trademark Office (USPTO). This database is updated daily.
- **Additional coding is added** to ensure our design searches return the most relevant results. We code and categorize all prominent elements of your design, and use our proprietary database of USPTO records to locate design marks with similar elements.
- **Our proprietary search system** generates results which are reviewed by our expert analysts, who select the most pertinent marks for inclusion in your final report. We cite identical and closely similar design trademarks in specified goods and services classes.
