

International Title Search

International Title Search from Thomson CompuMark provides an authoritative solution for extending searches of entertainment titles to key international markets in North and South America, Europe, Asia, Australia and New Zealand. A Thomson CompuMark exclusive, International Title Search is the world's first common law title search with global coverage.

INTERNATIONAL SEARCHES MADE EASY

With global markets expanding for entertainment works—including film, TV and computer games—searching those titles internationally has become crucial. International Title Search addresses this need, providing a convenient, cost-effective solution for searching titles across key entertainment markets around the world.

International Title Search benefits:

- **Global Reach**
Easily search the most important international markets: Canada, U.K., Australia, New Zealand, European Union, China, Hong Kong, Japan, South Korea, and Central and South America. Select only the market(s) you need, or all of them.
- **Ease and Convenience**
Save time and effort with a single, trusted source for searching titles across multiple international markets. Rely on your Thomson CompuMark title team to perform title searches for markets worldwide.
- **Reliable Results**
All sources meet the reliability and accuracy standards you have come to expect from your Thomson CompuMark U.S. Title Availability Search—now available worldwide.
- **Thorough Reports**
Common law title reports include exact matches and closely similar titles, across multiple media—including film, television, and computer games.
- **Flexible Delivery**
Choose how you prefer to receive search results: hard copy reports or electronic reports sent via email or SAEGIS™ Inbox.

International Title Search can be ordered alone, or as a supplement to a Title Availability or Entertainment Availability Search or any international trademark screening search.
