

Watch E-Services

Watch E-Services from Thomson CompuMark is a convenient, time-saving solution for reviewing watch results, creating and sharing custom reports and managing your trademark watch portfolio online.

Thomson CompuMark offers three Watch E-Services options, giving you the flexibility to choose the level of online watch management that meets your needs:

PORTFOLIO MANAGEMENT

This option complements your paper watch reports with convenient, online portfolio management capabilities. Verify renewal dates, verify classes and countries watched, and prepare a list of marks watched to share with clients—quickly and easily.

ELECTRONIC DELIVERY

Enjoy the speed and convenience of early, online access to watch notices. Access watch notices before you receive your paper reports, so you can act faster to protect your mark.

- **Review, sort and track** full text watch notices online for up to 6 months.
- **View information the way you want.** Customizable data columns let you decide what data to show and in what order.
- **Quickly create Microsoft Excel-based watch reports** and email them to clients and colleagues to collaborate more effectively.

PAPERLESS WATCHING

For those who prefer complete online watching capabilities, Paperless Watching provides advanced notification, review and paperless management features that streamline your workflow and save you time.

- **Email Notification** of new watch notices provides rapid alerts when potential infringements are identified.
- **Custom Status** lets you create your own status for each notice for faster, easier tracking of results.
- **Deadline Countdown** displays the number of days to opposition deadline, so you can take action before it's too late.
- **Automatic Translations** for 15 western European registers (including 7 western European languages) helps you better evaluate global results.
